Personal Statement

An enthusiastic programming student studying software development, specifically full-stack web development. Interest in all areas of IT, including programming, networking, and cybersecurity. Regularly volunteering with Scouts UK, including a visit to Malawi in Africa to take part in community work, has increased/developed repertoire of transferable skills such as resilience and leadership.

Skills

IT Skills - Competent in using Python, JavaScript, HTML and CSS, and good knowledge of SQL and the Unity engine.

Time Management – Planning events and activities for the scouts ensuring that meeting timings aren't exceeded.

Communication – Clear communication to effectively respond to incidents while lifeguarding.

Teamwork – Working as part of the leadership team for the scouts to organise activities.
